

To mark the first anniversary of their opening of business in Coleman Ironside and Park will dry clean one pair of men's pants FREE with every dollar order or over they receive during the next two weeks. Take advantage of this splendid offer today.

Australian Airmen and R.C.A.F. Party Visited Coleman

"The Top Show Since We Left Home" was Expression of Appreciation to People of Coal Mining Town.

Coleman opened its arms to a party of 40 Australian airmen and twelve of the R.C.A.F. who were given a 36-hour leave to visit the Crow's Nest Pass on Friday and Saturday. Chartering a Greyhound bus, the Australians left about 6 p.m. for their journey to the mountain town, while the remainder of the party were kindly conveyed by L. Cuthbert and George Scougal in their cars.

On arrival, they were allotted to various homes in Coleman and hosts and hostesses accorded them a hearty welcome. Later the dance held by the ladies and girls of the Canadian Auxiliary Territorial Service was the gathering point for all the young people, as well as many of the older, and this continued till an early hour on Saturday.

Through the courtesy of International mine management, a party were shown the underground workings on Saturday morning. Many of the visiting airmen passed up the "voluntary" parade, and enjoyed an extra couple of hours sleep, for as they remarked, it was the first touch of home life they had enjoyed since leaving Australia, and they made the most of it.

Sergeant J. Hodges was the non-com. in charge of the party, and Rev. A. J. Sinclair, supervisor of recreational activities for the Canadian Legion War Auxiliary Service, accompanied them. During the afternoon citizens drove the airmen to the mining towns of Michel, Natal and Fernie, in British Columbia, while others visited that most interesting place where in 1902 the famous Frank rockslide buried without warning almost a hundred people and covered the valley for about a square mile to a depth almost a hundred feet in places.

In the evening the Canadian Legion arranged a smoking concert in their club room, during which the president expressed his pleasure on behalf of the club at being able to entertain the "Ausies." Songs were sung, a few jokes told, and a vote of thanks was voiced by one of the Australian visitors, in which he declared that it had really been "the top show since they had left Australia to spend such a pleasant holiday in Coleman."

About 10 p.m. the party left for Macleod, tired but happy and carrying with them pleasant memories of a week-end leave which they hoped would be repeated before they left Macleod for training elsewhere. Dr. and Mrs. Claxton and Bud Clarke and Bud Eyesacker kindly drove some of the party back to Macleod.

Morgan McGrath Died on Tuesday

Came to Coleman Twenty Years Ago; Funeral Arrangements Still Incomplete

Morgan McGrath, aged 58 years, died peacefully in his sleep at his home in West Coleman on Tuesday morning. Funeral arrangements were still incomplete Wednesday afternoon as friends awaited the arrival of an only daughter, Mrs. Earl Driver, from Vancouver.

Born at Eganville, Ont., deceased came to Coleman in 1920 where he gained employment at International mine. During the past few weeks he had been ailing. His wife predeceased him 22 years ago at Vancouver. For some time he has been residing alone at his home in West Coleman.

Bob Emmerson of Medicine Hat air training school, is visiting with his parents, Mr. and Mrs. Joe Emmerson. Bob expects to be called east shortly for training in the air force.

John Rogers left Tuesday evening on a business trip to Calgary.

RECRUITING OFFICER FOR R.C.A.F. TO VISIT COLEMAN

An officer from the R.C.A.F. recruiting centre, Calgary, will be in Coleman on February 20, at the Legion hall, from 2 p.m. to 5 p.m., for the purpose of interviewing persons in this district who are desirous of making application for enlistment in the Royal Canadian Air Force.

He will also be in Michel on February 20, at the Legion hall, from 9 a.m. to noon, for the same purpose.

THREE GENERATIONS OF SOLDIERS

The above photo features a father, son and nephew combination all of whom have worn His Majesty's uniform. The young man is Sidney Morrison, son of Mr. and Mrs. Malcolm Morrison of Westsaskatoon. He is a member of the Southern Alberta Regiment stationed at Nanaimo, B.C. Coleman's Alex Easton stands in the centre. He joined up with his father, who stands beside him, in the 192nd Battalion of the Crow's Nest Pass. He served in France with the 38th and 85th Battalions. Mr. Robert Easton, the third member of the party, is 77 years of age. He joined up with the 192nd Battalion in the Pass and served in France with the First Canadian Labor Battalion. He left Coleman fourteen years ago for Calgary where he has since resided.

Red Cross to Sponsor Weekly Dances

Solicit Empty Shaving And Toothpaste Tubes; Italian Society Aids Dance Com.

Regular meeting of Coleman Red Cross association was held on Monday evening in the surgery. Since the Dominion government is badly in need of various materials to aid in its war effort, the local association has set up depots at Antrobus' Shoe store and Cameron school for old empty tubes of shaving cream and tooth paste. The public is asked to keep those empty tubes and drop them in the boxes placed for that purpose at the two depots.

The Red Cross convention will take place in the near future at Edmonton. Coleman will not send a delegate but should any local member be in the capital at the time the convention is in session he will consider himself Coleman's representative and be expected to attend the sessions.

A letter of thanks will be sent to the Italian hall committee for reducing the rent of the hall for the Red Cross dances which are to be sponsored each Saturday evening.

A dance committee was formed to govern all business pertaining to the Red Cross dances which will be sponsored each Saturday evening in the Italian hall. Miss A. Yuill, Mrs. DeCecco and Wilfrid Dutil form the committee. The ladies will supervise the dance next Saturday evening.

Any ladies desirous of learning to knit mitts for the Red Cross can do so by calling at the home of Mrs. W. L. Rippon on Tuesday evenings at seven o'clock.

Robert Mitchell was a visitor to the Kellogg ranch at Midnapore at the weekend.

Mayor Elton Gave Stirring Address in Support of War Savings Campaign

Lions Campaign Committee Asks For More Volunteer Canvassers; A. F. Short, E. G. Hansell, M.P., A. Morrison, M.L.A., Bert Garrett and F. Guevard Gave Addresses. Dr. C. Rose, Chairman

The public meeting sponsored by Coleman Lions club on Tuesday evening for the purpose of giving added impetus to Coleman's war savings certificate campaign was attended by persons from all Pass towns. They were addressed by an able group of speakers which included Mayor David Elton, of Lethbridge, E. G. Hansell, M.P. for Macleod constituency; A. Morrison, M.L.A. for Edson and secretary of District 18, U.M.W.A.; A. F. Short, vice-president of the local coal companies; Bert Garrett, who represented Coleman branch of the Canadian Legion, and Fred Guevard, Lions campaign manager for the sale of war savings certificates. Arthur G. Baulin, southern Alberta organizer for the campaign, was unable to be present.

In his opening remarks Dr. Rose thanked the speakers for being present, the band for its services and the Miners' hall committee for donating the hall for the meeting.

Bert Garrett, Legion representative, stated Coleman Legion was 100 per cent. behind the war savings campaign movement. He stated by co-operative effort the local Legion had made a success of its cigarette fund and the same co-operative effort by the people of Canada could make the war savings campaign the success the Dominion government expected it to be.

In introducing Mr. Hansell, Chairman Rose stated the Macleod member had originally been scheduled to address the Lions club at its fortnightly banquet scheduled for Tuesday evening but which had been cancelled in favor of the public meeting.

Mr. Hansell stated that all party lines in the House of Commons were lost sight of when the business before the house was furthering Canada's war effort. It was then that the parties were as one.

He paid tribute to the late Norman Rogers, former minister of national defence, as being a great man of his day. Quoting a sen-

tence from the last public address given by Mr. Rogers, "Canada must put on the whole armor of God," he stated Mr. Rogers had seen Canada in the present conflict fighting a total war.

Those having the least seemed to be giving the most. Canada's forces were composed for the most part of young men who had nothing more to offer than their lives. In the face of this, others should be willing to lend their means. Total war means exactly what it says—Total. He boosted the patriotic clubs throughout Canada which were ready to serve the government in her hour of need.

Chairman Rose gave an explanation of why the Lions club campaign had slowed down. The national campaign was being sponsored in February and it was found that the local campaign was at variance with the national. It had been suggested by the southern Alberta organizer that the Lions should enlarge their campaign by inviting volunteer canvassers. Supplies were slow in arriving but were expected shortly and all war certificate savers would be given a war saving button to wear.

A. F. Short welcomed the people present from other Pass towns and hoped they would take with them the addresses given by the main speakers and act as crusaders in telling their friends and neighbors of them and so publicize the campaign.

He stated justice was manifest in the forces fighting with us. The peoples of the British Empire, Free French, remnants of the conquered countries of Europe, and many U.S. citizens—all united in one common bond—Freedom.

"He added a note of warning that the people in this section of the country were not bearing their fair share of the war, which resulted in others elsewhere having to shoulder an added burden.

"No man was more suited for his job than was Churchill. His words will rank alongside the famous quotation by Nelson."

Our community war effort determined Canada's war effort which in turn determined the Empire's war effort. Churchill's speech Sunday afternoon was to prepare his people for the all-out attack of (Continued on Page 8)

Butchart's Gardens Offered to City of Victoria

Many Albertans have visited the far-famed Butchart sunken gardens not far from Victoria, and have enjoyed the equally far-famed hospitality of the owners, Mr. and Mrs. R. P. Butchart. Now, because of advancing age, they have decided to move into the city, but before doing so have offered their property to the city of Victoria and the local municipality in order that it should be preserved as a tourist attraction.—Calgary Herald.

JACK BURNS

son of Mr. and Mrs. Tom Burns of Vancouver, formerly of Coleman. Jack was born in Coleman 18 years ago. He recently joined the Canadian Navy and was immediately sent to Esquimalt, B.C. for training. He expected to be sent to an eastern Canadian port some weeks ago and may now be patrolling the Atlantic seaboard. He is a nephew of Mr. and Mrs. I. A. James.

Pass Retailers Held Meeting on Tuesday

Discuss Suggestion to Organize Alberta Retail Merchants' Association

A meeting of Crow's Nest Pass retailers met in the Oliva hall, Blairmore, on Tuesday evening at a meeting called by Mr. McKay, secretary of the Retail Merchants' Association of Alberta.

The purpose of the meeting was to discuss the suggestion of a reorganization of the retailers of Alberta.

Mr. McKay disclosed the fact that Alberta is the first province to act on this suggestion and it is known that retailers in other provinces are watching its progress.

A committee was formed to interview all Pass merchants regarding their views on the proposal. Mr. McKay intends staying in the Pass for a few days to help the committee.

Those attending from Coleman included Messrs. J. M. Allan, Frank Abousaffy, J. Holyk and Wilfrid Dutil.

Mrs. R. Rhodes spent last week visiting her parents, Mr. and Mrs. Wm. Antle. She left at the weekend for her home at Porcupine Hills.

Mr. and Mrs. Walter Williams were hosts at a farewell dinner at their home on Sunday afternoon in honor of Mr. "Slim" Shaler and Wilmer Cox. A number of friends were present. Mr. Cox received a call from the R.C.A.F. to report to Calgary, where he will receive training as a gunner. Mr. Shaler has been a mechanic in the Coleman Motors for about two years. He gained employment in a Calgary garage and left Monday to take up his new duties. Mr. Shaler was presented with a travelling bag and Mr. Cox with a pen and pencil set by their friends.

William in Greensboro (Ga.), Herald-Journal: The president of the concern is the one who wishes he could use a saw and hammer and receive wages like a carpenter and brick mason.

Monday's Election For Council And School Trustees

Evans Led School Vote, Jenkins Re-Elected to Council; Heavy School Vote

Monday's election results given below created local interest, and as usual the school vote was the heaviest, as many who are not property holders have the franchise to vote for school trustees.

Wilfrid Dutil's record as a good worker in the interests of the community was sufficient to win him popular support, for in the Red Cross campaigns he has given valuable leadership, and in other ways he has proved himself worthy of public trust.

George Jenkins' re-election was a fairly safe prediction. The school board election results are similar to those of a few years ago. Former trustees who had rendered good service were rejected, and this time two trustees who sought re-election were rejected. Evans, Stigler and Churla go on the board in place of Fraser, Sharp and another who resigned.

RESULTS OF BALLOTING FOR MUNICIPAL ELECTIONS

For Council
George Jenkins 234
Wilfrid Dutil 181
Dutil 176
Herbert Sherratt 127

For School
George Evans 484
Mack Stigler 450
Edward Churla 379
William Fraser 283
Peter Sharp 240

CARD OF THANKS
Appreciation is expressed for the whole-hearted support given me in the election for councillors on Monday. I pledge myself as councillor to always support any progressive Coleman school district. No. 1215, faithfully.—George Evans.

WILFRID DUTIL
CARD OF THANKS
Thanks are expressed to all taxpayers who supported me in the recent municipal election for school trustees. Special thanks are extended to Messrs. Joyce and McCloy, scrutineers. It will be my constant endeavor to serve the taxpayers of Coleman school district. No. 1215, faithfully.—George Evans.

CARD OF THANKS
I wish to thank all those who so nobly supported me in our recent school election.—Mack Stigler.

Wrathy Over Conduct of Theatre Patrons

One young lady came into the office early Tuesday morning angrily denouncing those theatre patrons who, at the week-end feature, had failed to stand at attention while the national anthem "God Save the King" was being played at the end of the main picture.

Patriotic citizens are in agreement with the young lady. On Saturday and Monday evenings it was most noticeable that very few adults stood at attention while the anthem was being played. The others were crowding up the aisles, making for the exits.

There was one excuse for many of them however. The picture was all about Czechoslovakia and its Nazi domination. Following the conclusion of the picture to everybody's surprise "God Save the King" was played. By that time the patrons had risen and were crowding the aisles and those who might have stopped and stood at attention were forced towards the exits by the people behind them.

It is to be regretted however that many more persons did not stand at attention.

Mrs. Penny, Sr., has been a patient in a Flinch Creek hospital for the past three weeks.

THAT'S MY CHEW

The Turning Point?

The fact that Anglo-Saxon leadership in both hemispheres is frequently reiterating the belief that the current year, 1941, will prove to be the turning point of the war, should not lull the people of this country into the fond delusion that the worst is over and that it will not be long before British forces will be able to win in a walk-over.

While, of course, there is always the possibility that some unknown and unforeseen factor may suddenly enter the picture and cause the tide of victory to flow like a great tidal wave, such a contingency should, at present at least, be regarded as a pure gamble with long odds against it. On the contrary, the safe, the sane and the only sensible view to take is an assumption that there are plenty of hard knocks yet to come; indeed, indications at this stage seem to point to the likelihood that the toughest blows which the enemy may be capable of delivering have not yet been struck.

No matter how comforting it may be to nurse the belief that the corner has been turned, it would be the part of wisdom to steel ourselves to the thought that there is a long, hard road to travel yet before the victory is won and the war is over. Not only is it the part of wisdom to accept this hypothesis as a truism, but it is the only safe view to take, and having taken that view, to shape our course accordingly.

And what does it mean to shape our course in accordance with this assumption, if it does not mean that we must redouble our efforts on all fronts, that we must multiply our sacrifices without counting the cost, that we must daily grind our loins for sustained and superhuman effort, that we must marshal to the fight all our resources, to the last man available, the last dollar in the purse, the last ounce of energy in productive effort in the factory and the field?

We Are Not Alone

There may be good ground for the opinion that 1941 will see the turning point of the war in favor of the British and the Allies, but it will not be unless every Canadian does his or her bit to help make it so.

If any consolation is needed to temper the sacrifices that are now being made and the still greater sacrifices that will inevitably have to be borne before we have seen this thing through, it should lie in the knowledge that the harder we pull on the oars the sooner will the finish line be reached.

If any further consolation is needed it may be found in the knowledge that we are not alone. Not only have we ranged on our side the enormous productive capacity of the factories, the mills and the shipyards of the good neighbor to the south, but in Europe and Africa millions of Nazi victims, at present on the sidelines, are eagerly yearning and anxiously waiting the moment when they can, with some hope of success, pitch into the fray and help rend the fog which ground them into the dust.

When that moment comes, which will be after the tide has definitely turned, one may reasonably expect a rapidly increasing tempo in the upsurge of the revolting victims of Nazi cruelty and repression. There are many evidences that help from that quarter will be forthcoming when the time is ripe, help which will play its part in accelerating the end of Nazism in Europe, after the pattern of the rolling snowball.

Biding Their Time

The temper of the people in some of the conquered countries, after the first shock and depression of their plight were off is evidenced in stories which have filtered through to Canada via Great Britain.

For instance we learn that in Brussels when Germans board a tram, all the other passengers get off. The cinemas which show German news reels are empty. If a German asks a Belgian stranger for a light, it is offered, but the Belgian throws away his own cigarette.

In Holland, the German-controlled Huisman radio has had to complain that ministers of the church select ambiguous texts for their sermons in order to point an anti-Nazi moral. Prof. C. V. De Vries, of Rotterdam, has been sentenced to 18 months imprisonment and fined for introducing some remarks about the Dutch Royal House in a speech with the words: "As I myself heard over the radio and as you will have heard..."

Germans are complaining that people in these two countries and in France are listening to British broadcasts, but the Germans apparently are quite unable to stop it.

Then, too, there are the peoples of ravaged Czechoslovakia and Poland. They are not going to forget the massacres, the tortures and the indignities they have sustained. Those who have escaped are performing valorous deeds with the British forces. Those who were not so fortunate are biding their time.

No, we are not alone. But until that turning time comes, let our backs bend, let our muscles ripple.

Ermine is the fur of northern weasels of both hemispheres, with the pelt being taken in winter, when the animal's coat changes from brown to white.

The flightless cormorant of the Galapagos Islands cannot breathe with its beak closed. The nostrils grow together before the bird is hatched.

Markings Changed

Markings of Royal Air Force fighter planes, previously almost the same as those of the enemy, have been changed. The black coloring on the undersurface of the port wing of the starboard wing remains duck-egg blue and red, white and blue roundels have been retained.

Peas Once Were Treasure

Nowadays a pea is just something that won't stay on a fork but in the gilded days of French 17th century society peas cost \$60 a pint, delegates to a camping conference at Michigan State College were told.

Berlin says that "at the opportune moment" it will tell the reason why there was no invasion of England last fall. It can tell it to Germany. We know the reason now—the R.A.F.

Need Radio Men

Wireless Operators And Mechanics Required In Canada And Britain

To fill an urgent need for radio mechanics and engineers for British and Canadian air forces lists of the national registration conducted last August across Canada are being combed for qualified men.

At an air ministry press conference, Hon. C. G. Power, said "radio operators are the crying need in Britain and also here." Since before Christmas the air ministry has been recruiting radio operators, with the aid of a big publicity campaign. All enlistments were assured quick transfer to Britain, if qualified.

About 700 radio men have been taken on, including 100 officers, but the need is for several times that number. The exact number required has not been disclosed, nor have details been given of the nature of the work involved. A report that wireless men were needed as service staff for the new R.A.F. defence against night bombers has not been confirmed.

Officials have been quietly combing the national registration records for men with radio training, and this has been the first notable adaptation of the lists of skilled categories to an important war purpose. The lists have been used to locate men with training required for special jobs from time to time over since registration was completed. But only now has the voluminous record of 8,000,000 citizens been sufficiently organized to permit wide scale use. The call-up of radio mechanics is purely voluntary, and the registration records are being used only to locate qualified men who are being invited to enlist in the R.C.A.F.

Rocky Mountain Sheep

Four Specimens From Rockies To Be Shipped South

Four Rocky Mountain sheep from Banff National Park in the Canadian Rockies will soon be shipped to more southern climes, reports the Department of Mines and Resources. One of the sheep will be sent to the Agricultural and Mechanical College of Texas, where it will be used for genetic experiments. The other three will go to New Mexico where they will be used for re-stocking purposes in high mountain areas in the northern part of the state, formerly inhabited by this species. This is the second shipment of these animals to New Mexico, the others having gone forward a year ago.

In common with the buffalo and the antelope, the Rocky Mountain sheep once faced possible extermination in Canada, but to-day bands of them are a common sight in the mountain parks, where they are hunted only with a camera. This splendid mountaineer, with his massive curling horns is one of the most coveted of big game prizes, and the future of the species is ensured by the sanctuary conditions in the national parks, which serve as reservoirs for the areas in which big game hunting is permitted.

Knew About Sailors

The boy had shown such a degree of ignorance and mental obtuseness that the teacher was disheartened, and she finally asked sarcastically: "Do you know whether George Washington was a soldier or a sailor?"

"He was a soldier," answered the urchin, promptly.

"How do you know that," she persisted.

"Cause I saw a picture of him crossing the Delaware, an' any sailor'd know enough not to stand up in the boat."

Premier Philoff and the Bulgarians need not fear until they receive a promise from Berlin that the Nazi army intends to protect them.

Playing of music by Chopin, the Polish immortal, has been banned in Poland.

Shell Plants

Manufacture Of Explosives To Be Greatly Increased

Total production of explosives in Canada this year should approach in quantity the entire output during the first Great War, said Hon. C. D. Howe, minister of munitions and supply.

Mr. Howe outlined the progress of Canada's \$100,000,000 chemical and explosives program on which some 15,000 men are engaged on construction work alone. Several thousands more are engaged on production.

The chemicals and explosives program calls for an output more than double that of any year of the first Great War.

One shell-fitting plant and two chemical plants started operations in the last three months. Two other major chemical plants and one major explosives plant should enter production shortly. A Canadian plant will soon be loading aerial bombs. Some of the new plants will manufacture chemicals never before made in Canada.

To have the advantages of decentralization and at the same time provide "business and professional leaders essential to the success of the program with an administrative mechanism with which they are fully familiar, the entire chemicals and explosives plan has been placed in the hands of the Allied War Supplies Corporation, a company wholly owned by the crown."

Mr. Howe said this company would have under its supervision the development and co-ordination of 19 explosives, chemical, shell-filling and related projects. Although the projects are administered by private industry the ownership is vested in the crown.

Greater portion of the major projects will be in operation by July or August. Construction work now in progress calls for a monthly payroll of about \$2,000,000.

History Of Silk

Was Used In China Before The Dawn Of History

It is said that the kings and nobles of China wore silken garments away back before our records of history, but Europe first knew this material when the venturesome explorers of Venice and Portugal brought these luxury fabrics to decorate their lady loves in the thirteenth century.

Silk always had its lure. A story is told that even the Greek philosopher, Aristotle, tutor to Alexander the Great, fell victim to the wiles of a little maid in waiting who flourished about the court in a flimsy silken skirt.

Queen Elizabeth, in the year 1561, is reported to have worn the first pair of silk stockings, crude and coarse affairs compared to the diaphanous leg-gear worn by the shop girl of to-day. Before this time, stockings were made of velvet, and other expensive cloth, for the short-trousered men, but the ladies, with their long gowns, paid little attention to their hose.

It was a minister of the church, the Rev. William Lee of an English village, who in 1589 invented the first knitting machine to make stockings, and all because he grew so tired of seeing his wife monotonously knitting the family stockings by hand. Dear man! But neither he nor anyone else believed then that knitting machines could knit anything so fine as silk thread.

British Subjects Released

Some 1,000 British subjects have been released from a camp in unoccupied France where they were interned at the time of the French collapse. The British Broadcasting Corporation reported. About 600 more are expected to be released shortly, the BBC said. Those released were women with children under 16, women over 60, men over 65 and women whose husbands are over 65, the BBC added.

Ready For Emergency

Says Greatest Hour Of Britain's History Is Approaching

The greatest hour of Britain's history is approaching "and we shall arise to it," A. V. Alexander, First Lord of the Admiralty, told a war weapons meeting.

"What we have accomplished has given us our chance to win," Mr. Alexander said. "Now we have to take that chance to go on to victory."

The heaviest tasks, sternest ordeals and severest testing time still lie ahead, he warned, adding: "Our endurance and courage will have to rise to yet greater heights."

"Inevitably the full weight of the mightiest military machine the world has ever known will be hurled against us," he said and "we will have to meet the onslaught..."

"Having realized the nature of the crisis that lies ahead, there is no need to quail. The greatest and grandest hour of our history is approaching and we shall arise to it."

Russia has ordered 10 large electric switch engines in America.

British Armada Pours Tons Of Shells Into Italian Port Of Genoa

London.—A British armada, sweeping darily into a close corner of Italy's Mediterranean coast, poured 300 tons of shells at dawn into the great Italian port of Genoa.

Against the other end of the axis, British planes again struck deep into Germany with an attack on Mannheim, Germany, as well as on the Nazi-occupied ports of Flushing and Rotterdam in daylight.

(Prime Minister Churchill, telling the Empire in a broadcast of this latest exploit of Britain's seapower, called it a "shattering" bombardment "of the naval base from which perhaps a Nazi German expedition might soon have sailed to attack (French) Gen. Weygand in Algeria or Tunis.")

To reach Genoa, the British warships had to sail past Sardinia and Corsica into an arm of the Mediterranean, the Ligurian Sea, many miles from British bases at either Gibraltar or Malta. Genoa is the site of high merchant marine and naval construction.

To carry out this assignment in the innermost waters of the sea which Italians call "ours," the admiralty called on some of its finest and mightiest fighting ships—a fleet of about 100,000 tons—backed up by naval planes.

The admiralty sent the 31,100-ton battleship Malaya, the 32,000-ton battle cruiser Renown, the 22,000-ton aircraft carrier Ark Royal and the 9,100-ton cruiser Sheffield "with light forces in company."

These ships sailed into the corner of the Italian coast at the very top

of the "boot," about 600 miles on a straight line from the toe, and laid down a sea and air barrage "even more successful than at first thought."

Against wholesale damage which is reported at Genoa and at the ports of Pisa and Leghorn farther down the coast, the admiralty announced only one British casualty, a swordfish torpedo plane missing.

"The Ansaldo electric works and Ansaldo boiler works were heavily hit and large fires started," the admiralty communique said.

"The main power station of the port, which also supplies power for railways, was severely damaged and set on fire.

"Many hits also were made on dry-docks and on warehouses and on harbor works surrounding the inner harbor. Here, too, considerable fires broke out.

"The main oil fuel installations and oil tanks were repeatedly hit as were a number of supply ships and main goods yards of the railway."

At Leghorn, naval aircraft dumped "several tons of bombs and a large number of incendiaries on . . . one of the largest and most important oil plants in Italy," the refinery of the A.N.I.C.

British bombs also fell on the railway junction at Pisa, the admiralty said, where the main Italian west coast railroad from Genoa to Rome intersects the line across the peninsula from Leghorn to the Adriatic ports of Bologna and Venice. Two Italian planes tried to interfere, the communique added, and "were shot down."

Plastic Airplanes

Plant To Manufacture These May Be Established In Canada Soon

Ottawa.—Prospects are good for the production in Canada soon of all-plastic elementary and intermediate training planes. The Canadian Press learned from a reliable source.

Announcement is expected momentarily of the establishment near Toronto of a plant for the manufacture of plastic "noses" for Avro-Anson bombing trainers, samples of which were successfully test-flown in Canada recently.

The plant will be a Canadian branch of an American company which has made considerable progress in plastic fuselage experimentation.

"A large order for plastic Anson noses will be ready for this company and the expectation is that production of entire fuselages and wings will follow.

Canadian aircraft manufacturers have in hand a \$50,000,000 order for two-engined Avro-Anson bombers for use in the Empire air training plan.

Within 30 days it is expected that a complete plastic Anson fuselage will be ready for test flights, and this week it is planned, to have two or more American made plastic elementary training planes among a group of 15 trainers to be demonstrated here for the Royal Canadian Air Force.

Value of the plastic material is that it is light, durable and much less expensive than metal. If all tests prove satisfactory it is expected later deliveries will progressively utilize more and more plastic material.

Submarine Menace

German Long Range U-Boats May Infest Canadian Waters

London.—German long-range submarines soon may launch a reign of terror against shipping in Canada's Atlantic waters, a high naval source said.

Undersea raiders probably would have been operating that far afield already but for the Nazis' obvious attempts to court United States favor. This deterrent is believed to have been removed by the increasing assistance the United States is giving Britain in the struggle against the Axis.

Both Britain and her enemies have super-submarines capable of crossing the Atlantic with loads of torpedoes and mines. It was considered likely, however, the Nazis would establish a mother ship in the far north or South Atlantic from which underwater raiders would attempt to harass merchantmen carrying war supplies from Canadian and U.S. ports.

"The doubling of Canada's seapower announced by Prime Minister Mackenzie King will provide an answer to any such Nazi plans," the source said.

Casualties At Malta

Valetta, Malta.—Civilian deaths from air raids on this fortified British island during January totalled 63, it was announced. Seriously injured numbered 19. Aggregate casualties since Italian entry into the war were 132 killed and 218 seriously injured, 26 of them fatally.

THEY DOT THE DESERT

A helmeted Tommy of the British army in north Africa studies the insignia on an Italian plane shot down during the campaign.

Capture Of Bengasi

Complete Rout Of Italian Army In North Africa

London.—The fall of Bengasi, an event which knocks Italy out of East Libya, came so swiftly as to suggest complete disintegration of the Fascist army in North Africa.

Details of the British bag of prisoners are lacking; but reports from the general headquarters at Cairo indicated wholesale surrenders. There seems little possibility that the Italians can make another stand in North Africa.

Their defeat by Britain's desert lightning war is too crushing and complete not to indicate widespread conviction that Italian army morale is low, that the Italian public's acceptance of the Hitler-Mussolini war partnership has been grudging and unwilling from the hour it Duce plunged his country into the struggle.

An immediate consequence of the capture of Bengasi must be to bring the Royal Air Force and Royal Navy to closer grips with the Germans and Italians. At Bengasi British aircraft are not much more than 400 miles flight from the Sicilian coast.

Germans Seize Property

Vichy, France.—German authorities in Paris, it was reported, have announced a decree seizing the property of subjects of the British Empire, Egypt, the Sudan and Iraq in the occupied zone. The report said the property, inventory of which was taken with the help of the chamber of commerce, would be confiscated outright if owned by Jews. Otherwise the properties would be placed under German administration pending a final decision.

Payment For Beet Growers

Winnipeg.—Cheques totalling more than \$50,000 were mailed to sugar beet growers of the Red River valley. The money represents an additional payment of 50 cents a ton on the 1940 Manitoba sugar beet crop. Total payments to beet growers now exceed \$550,000 for this year.

THEY MEET TROUBLE WITH A SMILE

Bombed out of her home by German raiders who blasted at Sheffield, England's famed cutlery centre, this young mother still smiles happily as she hugs her baby. The little fellow was taken from the ruins, begrimed but unharmed.

Urges Canadians To Demonstrate Loyalty By Buying War Bonds

Toronto.—Only by saving and lending to the government a very large part of its war expenditure can Canadians hope to avoid "the disastrous consequences of progressive inflation of currency which experience has taught to be almost the worst evil that can befall a nation either in war or peace," Sir Thomas White, Dominion finance minister during the first Great War, said in a statement on behalf of the war savings campaign.

He urged Canadians to "demonstrate to the world our national solidarity and the patriotic eagerness of all Canadians to make whatever sacrifices may be needed until victory is won" as they had done during the last war.

One vital factor in war finance, he said, was maintenance of confidence and national credit. Nothing was more likely to sustain this confidence and credit than the willingness of the people to work hard, save as much as possible of their earnings and lend it to the government in support of its war effort.

"The urgent need for an appeal must be obvious to all," said Sir Thomas. "Canada's war expenditure for the current year alone may reach a total not far short of the entire capital cost to Canada of the Great War throughout its four-year duration. This unprecedented expenditure has been caused in large part by the altered conditions of warfare mentioned, the enormous costs of plants, armament and other equipment and the vast expansion of Canada's naval and air services."

"In this connection I recall that at the close of the Great War the people of Canada to the number of 1,500,000 held bonds and savings

certificates issued by the government, all of which were scrupulously honored according to their tenor as interest and principal became due," he added. "This meant that practically every family in Canada was the owner of one or more of these securities. It would be impossible to over-estimate the benefit of these holdings to the well-being of our people in the post-war period."

"Only by saving and lending to the government a very large part of its war expenditures can we hope to avoid the disastrous consequences of progressive inflation of currency which experience has taught to be almost the worst evil that can befall a nation either in war or peace."

Sir Thomas' statement continued: "The minister has in mind also the effect of individual thrift and savings in keeping within bounds the ever-rising cost of living. If our people spend fully the increased volume of their purchasing power due to war activities and widespread disbursement of huge public expenditures it is manifest that owing to this vastly increased demand for goods of all kinds prices are bound to rise followed inevitably by increased cost of production and the dreaded 'spiral.' To partially meet this situation a system of strict rationing is adopted by most nations at war. We had such a system in Canada before the close of the (first) Great War. The minister hopes to avoid the necessity of such regimentation or of compulsory saving, relying upon the patriotism, good sense and self denial of our people to do voluntarily what is necessary in the way of saving and lending for war purposes rather than be forced by compulsion."

Policy Of Peace

Says Japanese Trade With Australia Is Necessary

Melbourne, Australia.—Japanese Consul-General Akiyama said that Japan is supplying Australia with many items essential to her war activities. These, he said, include materials for service uniforms, electrical equipment and machine tools.

The consul said trade between Japan and Australia is steadily growing in volume and asserted the decision of the N.K. steamship line to put three 10,000-ton liners into the Japanese-Australian service indicated Japanese policy is friendship toward Australia and promotion of peace in the Pacific.

Divert Food Supplies

German Agents In Prague Claim Of Large Scale Sabotage

London.—German agricultural agents in Prague are complaining of "large-scale sabotage" of food supplies intended for Germany, the British Broadcasting Corporation reported.

"According to news reaching London," the BBC said, "many thousands of pigs, calves and other cattle have been secretly slaughtered. Last year 13,000 wagon loads of grain and at least 300,000 tons of meat were successfully hidden and prevented from reaching Germany."

Opposing Nazi Regime

Loyal Norwegians Are Making Trouble For Major Quisling

Stockholm.—Reports from Oslo said continued opposition to the Nazi regime of Maj Vidkun Quisling had manifested itself in street fighting and hundreds of arrests in western Norway.

Many persons were injured at Alesund, north of Bergen, the capital, when, members of Quisling's Hirden (youth organization) fought with loyal Norwegians in the streets. Shots were exchanged.

The secret police and the Hirden broke into several opposition meetings (exactly where, the report did not say) and arrested hundreds of labor and Communist party leaders. Documents were seized as the basis for action against the prisoners who were said to have been taken to concentration camps.

Sabotage continued despite efforts of the German forces and the numerous arrests the reports said.

Will Visit Western Canada

Ottawa.—The Earl of Athlone and Princess Alice will leave Ottawa at the end of March for a month-long tour of the western provinces, official sources said. It was learned Victoria would be one of the places visited, but other details of the itinerary were not immediately available.

New Recruiting System For Royal Canadian Air Force

Ottawa.—The Royal Canadian Air Force announced the adoption of a new system of recruiting designed to effect ordered assimilation of an increased flow of recruits for training.

Prospective recruits suitable for air crew training and who have already filed applications will be enlisted immediately but will be given leave without pay until the date they are scheduled to enter upon their training course, the air force said in a statement.

"In the meantime, they will wear a special lapel button indicating they have been accepted for service with the Royal Canadian Air Force," said the statement.

Under this plan the new recruit will be told when he is formally enlisted, the date upon which he will be called for service, so he can arrange his private affairs without rushing. If, however, vacancies occur in the quota preceding his enlistment, the opportunity may be given him of reporting at an earlier date.

Air Minister Power, speaking in Montreal, forecast this plan when he envisioned an elite corps of airmen drawn from the "flower of Canadian youth" and said he wanted air force recruits "to come forward and be assured they will be told when they are required."

"A recruit must not expect to apply for air training and be accepted for despatch to the first stage of training within a few days," the air force statement warned. "Instead, if he is accepted he will be formally enlisted, given his special button and told the date upon which he will report for service."

"This staggered assimilation of recruits in quotas on scheduled dates will enable the R.C.A.F. to fit available manpower into available training facilities with the greatest efficiency so that there will be no overflow."

"In planning the opening of schools, it will be possible to tell months in advance the exact number of student aircrewmen available."

The air force said the training will reach its peak of production in September, 1941, instead of April, 1942, as originally estimated.

This means there will be 83 schools opened by this autumn compared with the 50 now in operation. On a hand-to-mouth basis of recruiting the orderly absorption of the required flow of pupils for the 33 schools yet to be opened and for schools already in operation was held impossible and the plan of enlisting for construction at a future date has been adopted to meet the situation, the air force said.

NOTES AND COMMENTS

COLEMAN'S part in the War Savings campaign should be an example to other towns of similar size. It really should show up better in the purchase of War Savings Certificates. A regular pay-roll puts money into constant circulation. Many from European countries are enjoying privileges that would be denied them in Nazi-oppressed countries whence many of them came. Britain is going to win this war, and it will require the wholehearted financial and moral support of all. There is no compulsion, for British people pride themselves on Democratic methods instead of compelling people to do a dictator's bidding. This, however, does not lessen the moral obligation of people to assume their share of responsibility, and there shouldn't be any shirking. A soldier who shirks is branded by his fellows as a "no-good." Shirking on the home front is equally as reprehensible as hanging back in the fighting ranks, for this is an "all-out" war and everyone MUST HELP to achieve victory. The people of Britain are giving their all to preserve Democracy and their own way of life. We benefit from their sacrifices, and words cannot sufficiently emphasize the vital necessity, which really is imperative, of the people of every city, town and village in Canada doing their part. Coleman in the past has responded nobly to organized appeals for the Red Cross, and other objectives; we believe it will respond as liberally in the efforts now being made throughout Canada to raise money to buy planes and munitions to subdue Hitlerism and world dictatorship.

T WAS ever thus, or nearly always! Serve on a municipal body for a term or two, incur someone's displeasure, and the next time you put up for election someone swings the axe. No matter how much time and energy an elected representative might put into a job, in the interests of the ratepayers who elected him, it counts for naught if a whispering campaign is started or some personal spite is to be gratified. It's human nature to act thus, though not commendable, for personal jealousies and rivalries blind people to the good that is in others, and no credit is given for their ability. Trouble-makers are always busy; and seldom do they contribute anything towards community progress or welfare.

THIS paper has always championed the cause of freedom. Back in 1922 we battled the Reds in their attempts to gain control of every civic organization, including the council and the school board. We believe the minority has rights as well as the majority. That is a principle of Democratic methods. Yet we have seen in the past, and in the present, attempts at dictatorship, intimidation and verbal abuse of the minority instigated by individuals who have not the real welfare of the workers at heart, but who attempt to stir up trouble in a mistaken idea that they are really doing useful work. Labor organizations are often incited to antagonism by paid organizers, frequently resulting in costly disputes in which the worker loses. Controversial matters can only be settled by compromise.

THE coal industry of this town has been developed over a period of 35 years by persistent effort. It has seen its strikes, depressions and other setbacks which have been sore trials to workers as well as mine executives. It has had to battle competition of other forms of fuel, so that the effort to maintain a steady output whereby employment could be given to workers has caused many headaches. There isn't a coal mining

centre in Canada that has been as fortunate as this in regard to steady employment during the past eight years, and this condition was brought about by the far-seeing vision and shrewd business ability of the late George Kellock. This condition can quickly be wrecked by misguided impulse and antagonisms which might be so easily and quickly developed through lack of serious thought. Workers should seriously ponder these things and do a little individual thinking and acting.

ONCE a mine closes down, even for a short period, serious loss is entailed, and in the face of such keen competition from many other quarters, no mining company can successfully compete if it is to be obstructed by disputes which if left to mature counsel to debate, would be amicably settled. Dictatorship in any form is dangerous, and robs the individual of his freedom. That is why we are at war, to defeat this very thing.

THOUGH many have been taken off the unemployed and relief lists, the financial burden is not lifted from the taxpayers. It is of course satisfying to know that vast sums are not being paid in relief on useless projects or to people who are prone to lay back and kid themselves that the country owes them a living. On the other hand, the increased business and greater turnover will be heavily taxed to meet war costs. This war puts us all in the front line, for if we are not in uniform, we must of necessity do our part, in submitting to taxation, or by voluntary financial help in the purchase of war savings certificates, to help win the war.

THE question occasionally pops up both in Britain and in Canada, as to what are Britain's war aims. This has been effectively answered by Prime Minister Churchill in stating that our first and vital aim is to smash Hitlerism. "Reds" and "Pinks" and doubtful intellectuals should realize that if Hitlerism were to win, their privileges under democratic governments would vanish, and they would be forced to "goose-step" to the dictators' commands. The big task is to WIN THE WAR, for peace settlements will be quickly taken care of once this big job is done.

PREMIER ABERHART is still trying to square himself on his action at the Sirois conference. Frankly we never could see that national unity had any part in his political career. His claims that Alberta is or should be a sovereign state indicates his mentality and were his policies fulfilled (which of course under Confederation cannot be) we would be isolationists. At the Sirois conference he stated "a totalitarian order of centralized control and regimentation is not only ridiculous but dangerously criminal." And he added—"I have no apology to make for speaking thus."

OF COURSE, he may have changed his mind since he tried to put through the Legislature "An Act to Ensure Accurate Information," which was designed to control the Press of Alberta, later declared ultra vires without Social Credit legislation. There has been no effort on his part to aid the nation in the present struggle. The only thing of importance to Mr. Aberhart is the foisting of his "funny money" theories on the people of Canada, and to work miracles through treasury branches and bonuses, the costs

of which, of course, have to be met by the taxpayers. And all the time he is railing against the "fifty big shots" he is making it harder for thousands of little shots. But Mr. Aberhart complacently rolls along enjoying far higher income than ever the principality of a Calgary high school would provide.

DOWN in Ontario Premier Hepburn is spending about \$10,000 of the taxpayers' money in full page advertisements telling his reasons for "bucking" the Sirois conference. Quite outspoken on this form of propaganda is the Canadian Statesman, one of the leading weekly newspapers of Ontario, published by George W. James at Bowmanville. Though the page advertisement is published in his newspaper, he boldly criticizes propaganda in the following editorial:

"THESE ARE THE FACTS"— BUT NOT ALL THE FACTS

It is the policy of newspapers usually to refer to prominent advertisements in editorial columns.

In this issue is a full page, paid advertisement, which announces "These Are The Facts . . . of conference on the Sirois Report." But note the facts given by premiers outside of Ontario are meagre and picked with a purpose.

From column one of this government paid advertisement we quote: "Those of us who believe in democracy abhor the very word propaganda because the circulation of ready-made opinions . . . is the most dangerous enemy of civilization."

Propaganda usually omits important facts and telling arguments of others.

Equally concerned in the welfare of Canada and the Empire at this particular time, are other provinces.

It will be observed that speeches of other provincial premiers are pared to innocuous generalities.

Reaction of voters here who have seen advance copies of this page spread is just this: "Who pays for this item of political build-up which may run close to \$10,000.00? Does it come out of the citizen's taxes or the party slush-fund?"

These questions will be repeatedly asked by those who have the time and fortitude to negotiate all this fine print.

The money thus spent would buy a lot of War Savings Certificates.

A NEWSPAPER publisher not infrequently is asked to put in a "plug" for some particular interest by some particular individual. If it is a matter of public concern and welfare, then the request is invariably granted, but if it is to serve a selfish interest, then the request receives the "thumbs down" reply. If any person has some legitimate interest to be served by publicity, then of course he may purchase the only thing we have to offer for sale—white space at so much per inch. Newspapers do not exist to give vent to grudges. There are so many worthwhile things in community life to be discussed and promoted that "knocking" just for the sake of paying a grudge has no place in a newspaper.

Compulsory deductions from civic payrolls for the support of charities, which was ordered by Edmonton city council, will result in \$8,000 to \$10,000 a year being given by city employees from their wages to a war and other charities. Suggested by the federation of civic employees, although two member unions objected to the compulsory feature, the order has not won unanimous endorsement in the city. Principle of compulsory, rather than voluntary donations has been the object of attack. It is stated that employees are at liberty to donate more if they desire, and also participate in war savings or specific campaigns.

Mrs. Mary Smith Died At Mission City on Feb. 7

Funeral Held Here on Tuesday; Came to Coleman in 1914 From Yorkshire, Eng.

The death took place at Mission City, B. C., of Mrs. Mary Jane Smith, aged 73 years, on Friday, Feb. 7.

Deceased came to Coleman with her husband and family in May, 1914, from Yorkshire, England. Her husband, Fred Smith, passed away in October 1920 and two years later she moved to Evansburg, Alberta. Following a few months residence at Evansburg she, accompanied by her son Fred, moved to Cadomin.

In 1933 she moved to Mission to reside with her daughter, Mrs. T. W. Davis, and had resided there almost continually since.

She was a member of Victoria Rebekah lodge, No. 7, for about 24 years and took a great interest in the work until last year.

Surviving are one daughter, Mrs. T. Davis, of Mission, and one son, Osmond Smith, of Coleman, eight grandchildren, and two great-grandchildren.

A funeral service was held in the Davis Funeral Chapel, at Mission, B.C. on Sunday, Feb. 9, and was attended by a large number of Rebekahs and friends. Rev. H. N. Oswald officiated and gave a short and touching address. Hymns sung were "Peace, Perfect Peace," and "Sleep In The Arms Of Jesus." "The Old Rugged Cross" was sung beautifully by Mrs. A. Derbyshire.

The body was accompanied by Mr. and Mrs. T. Davis to Coleman on Tuesday and was met by officers and members of Victoria Rebekah lodge and escorted to St. Alban's church where services were conducted by Rev. J. R. Hague. Hymns sung were "Jesus, Lover of My Soul," "Abide With Me" and "Rock of Ages."

Interment was made beside deceased's late husband in Coleman Union cemetery. Pallbearers were E. Beart, F. Stokes, H. Boulton, J. Rogers, G. Duffield jr. and G. Greenhalgh.

Card Of Thanks

Mr. O. S. Smith and Mrs. T. W. Davis and families wish to express their sincere thanks to all friends for their kind sympathy and help and especially those who offered their cars.

Theatre Notes

"Edison, the Man" as portrayed by Spencer Tracy is a picture all should see when it comes to the Palace on Saturday and Monday, Feb. 15 and 17. It shows this genius inventing some of his most noteworthy inventions. Entertainment thrills to top Tracy's greatest!

"Dust Be My Destiny" starring John Garfield and Priscilla Lane plays the Palace on Tuesday and Wednesday. It is a top ranking picture and the two stars give a superb performance.

Saturday, Monday and Tuesday at Cole's theatre "Untamed" will be the main feature. It stars Ray Milland, Patricia Morison and Akim Tamiroff. It is filmed in technicolor. They fought the wrath of the silent north for the right to live.

The Journal is in receipt this week of a renewal subscription from an old subscriber, Mrs. D. Davies, of Edmonton. Many thanks.

Certify victory with certificates.

LOCAL NEWS

Mr. and Mrs. S. B. Ryan visited at Calgary at the week-end.

Mr. and Mrs. Tom Holstead and Audrey spent the week-end at Calgary.

Mrs. Robert Ballard, of Calgary, was the recent guest of her sister, Mrs. A. Cornett.

Miss Edna Hoggan and Miss Agnes Kinnear left on Tuesday for a visit to Calgary.

Mr. Calvin Godfrey has gone to Calgary where he will train as a mechanic in the R.C.A.F.

The Misses Ethel Wilson and Edna Fairhurst visited at Calgary and Banff at the weekend.

Revs. J. R. Hague and J. E. Kirk attended the Pass Ministerial Fellowship at Pincher Creek Monday morning.

Born—To Mr. and Mrs. Peter Brown, of Medicine Hat, formerly of Coleman on Saturday, Feb. 8, a daughter.

Miss Viola Milley, of Garbutt's Business College, has been spending a holiday with her parents, Mr. and Mrs. Stewart Milley.

Mr. Fred Stokes, former Colemanite and now a citizen of Cadomin, is visiting his son-in-law and daughter, Mr. and Mrs. George Duffield, Jr.

Mr. and Mrs. Lloyd Sanderson, of Turner Valley, attended the funeral of Mrs. Sanderson's grandmother, Mrs. M. Simpson, on 't'ing afternoon.

Mild weather still continues to cause postponement of the semi-final game between Harry Boulton's rink and Lance Morgan's in the West Canadian competition in the Crow's Nest Pass bonspiel.

Doug, Plante, son of Mr. and Mrs. Joe Plante, has been transferred to No. 2 Manning Depot at Brandon, Man. He recently left Coleman for Calgary where he entered a mechanical school of the R.A.C.F.

Born—To Mr. and Mrs. James Jemson, near Lemay Hadley, at Holy Cross hospital on Tuesday, February 11, a daughter, Elizabeth Ismay. Mr. and Mrs. James Hadley, parents of Mrs. Jemson, will travel to Calgary on Friday to see the new arrival.

Miss K. Kilgannon of the Bank of Commerce staff at Vermillion, Alberta, is the guest of her mother, Mrs. K. Kilgannon.

LABOR UNION DEMONSTRATION HELD LAST SUNDAY

A labor demonstration was staged here on Sunday, organized by U.M.W.A. local officials, at which there were delegations of mine-workers from other Pass towns, including Michel and Fernie. The meeting was addressed by local organizers and Tom Uphill, M.L.A. in the B.C. legislature for Fernie. S. Weaver of Michel, Pat Conroy of Drumheller, T. McCloy of Coleman, with M. Joyce as chairman, were the speakers.

Addresses dealt mainly with the U.M.W.A. organization. Executive officials including the president and secretary of District 18, U.M.W.A., though advertised to speak, were unable to attend. Pat Conroy dealt with the labor movement in its world-wide aspects and activities.

C.A.T.S. NOTES

The C.A.T.S. of Coleman wish to extend their congratulations to the Legion and the people of Coleman for their splendid co-operation in entertaining the Mached air force men. The boys tell us that they enjoyed every minute of their leave and they expressed a sincere wish that we could do it again. The dance was very well attended and everyone had a good time and it is our best intention to have another one soon.

The Home Nursing classes that are starting on Sunday, February 16, at one p.m. in the school auditorium, must be attended by all members of the C.A.T.S. As this is a compulsory subject everyone must attend regularly and be prepared for the necessary examination.

The Motor Mechanics classes are going full swing under the able guidance of Tex Larrymore and in spite of lots of grease and a few bruises the enjoyment is general. One trusting citizen permitted his tire repairs to be made by one of the girls and as we have yet had no complaints, we may say she did a good job.

Rifle drill is another addition to the general activities and target shooting competitions are planned for the near future.

The ranks are still open for new members so ask your friends to come along with you. Report to Miss K. Milley or Miss I. MacDonald.—Contributed.

Mrs. George Kellock, accompanied by Mr. and Mrs. Jim Kellock, of Midnapore, were the guests of relatives here last week.

Miners defeated Blairmore 6-4 in a play-off game at Blairmore last night.

CROW'S NEST PASS MOTORS - Blairmore

WORLD HAPPENINGS BRIEFLY TOLD

Four Italian generals and 1,200 officers were among 3,000 Italian prisoners arriving in India for imprisonment.

The United States navy has arranged to turn over its reserve stock of tungsten to the steel industry to overcome a temporary shortage of the mineral.

The Japanese press predicted Japan would ignore a Netherlands note rejecting participation by the Netherlands East Indies in any new order in East Asia.

All previous records were surpassed by Ontario gold mines which produced bullion valued at \$122,232,970 in 1940, the department of mines reported.

Argentina is studying application of an ancient Roman rule of international law to requisition idle shipping in her ports to speed delivery of foodstuffs to Britain.

Bulgaria called new troops to the colors, among them the Sofia "Iron" division, with the official explanation they will replace men stationed on the Turkish frontier.

Portsmouth's ancient charter dating back to the 12th century and the carved oak front cover of Christ Church in the City district of London, are among the treasures saved from recent fire raids.

The United States senate ratified a treaty by which 14 Latin-American nations agree to apportion among themselves their exports of coffee to the United States market. The total to be apportioned amounts to 15,900,000 bags yearly.

Quebec's minimum wage commission passed a resolution recommending any limit to the number of working hours each week in war industries for the months starting Feb. 7, it was announced in the official Gazette.

Two Channel Wireless

New Equipment Introduced By Canadian Air Force in England

Innovations by a Canadian army co-operation squadron, under Wing Cmdr. R. M. McKay, of Winnipeg, who at 26 is the youngest man of his rank in the Royal Canadian Air Force, seem likely to revolutionize this branch of the air arm.

Most outstanding development has been a two-channel wireless transmitter for ground-to-air communication.

This apparatus, developed originally in Canada, was introduced to England by the squadron and has so impressed the Royal Air Force it is being adopted for the recently formed British Army Co-operation command.

It broadens the scope of operations of these squadrons and will enable the army to be provided with more complete and rapid information of enemy movements.

The equipment has been used daily by the Canadians in their operations of the past two months, and according to Wing Cmdr. McKay "it has exceeded our wildest dreams." Pilots and airmen handling the equipment say it simplifies work and is more reliable than the old equipment.

Behind the development is the initiative and enthusiasm of the wing commander, formerly the squadron's signals officer, who rose from rank of flight lieutenant to his present position in the last five months. A graduate in electrical engineering from the University of Manitoba, he is considered by his men to be one of the best technicians in the R.C.A.F.

A cat may look the picture of innocence, but it is just as well to keep the door of the canary's cage closed.

Hitler boasts he has no intention of winding up his career as Napoleon did, but then neither had Napoleon.

One of the world's very early surviving maps is a plan of a gold mine of 13th century, B.C., in Egypt.

Toughened By Training

Canadian Soldiers Come Through Intensive Exercises In Good To Shape

Drew Middleton of the Associated Press says: Thirty thousand men with 30,000 motor vehicles completed 48 hours of intensive manoeuvres in which a segment of Great Britain's new army tested the muscles built up in seven months of training.

Battalions of guards, the Royal Ulster Rifles, and a south Lancashire regiment participated in the exercises, capping the "toughening process" which Viscount Gort, inspector-general of training, instituted last summer.

Most of the troops went sleepless for 48 hours. They "fought" on two meals a day; breakfast was snatched in the cold gray dawn and supper was eaten long after dark.

Drivers pushed heavy army vehicles forward on the narrow, slippery roads in black-out columns.

The commanding officer emphasized this side of the training. Each man in the country, from the general down, must run seven miles across country once a week.

"We must train our soldiers to great powers of endurance," the general said. "If we fight we must be able to do these things and nothing is impossible if you know how to do it."

So he worked his troops as they are worked in war.

Helmeted men swung by through cobbled streets of country villages. Artillery limbers crashed through the underbrush to take up firing positions. They swung memories back to France and days last May "when heaven was falling."

So it was an emotional wallow to meet Ulsters moving up to "pass through" a gap. We remembered the last time, on May 14, 1940, outside Louvain in France.

We marched along a wet road in the cold with them. We met a subaltern we knew in Lille and we talked of Charlie, who is in a prison camp, and Liam, who fell at Louvain.

At 5.30 a.m. the Ulster commander decided the time had come to send two platoons across country. The men eased their rifles and tommy-guns.

"Well, so long," some said. "See you in Paris."

HOME SERVICE

BEAUTIFUL COLONIAL RUG EASY TO BRAID YOURSELF

No Special Equipment Needed

A lovely braided rug—to give an early American charm to your favorite room.

You can easily make it yourself, using materials on hand. A pretty combination—and the right amount for a cozy 24-by-36-inch size—would be 4 yards dark blue fabric, 3 yards figured 2 yards white.

Now all you have to do is tear your fabric into strips, about 3 inches wide by 1½ yards long, and start braiding them! But first turn in ½ inch on each side of each strip, press down, and fold through the middle. Then, as you braid, fold again.

It's a good idea to make your very first strips of uneven length, so that joinings won't occur at the same places. When you add new strips, cut the ends diagonally and sew together.

As soon as the braid is all prepared, measure off 12 inches on the blue, turn, and sew with heavy thread. Follow 4 rows of blue by 1 white, 8 figured, 1 white, and 3 blue. Our 32-page booklet tells in detail how to braid and finish this pretty Colonial rug, also has easy instructions for hooked, crocheted, knitted, woven and tufted rugs. Includes a stunning Navaho style, a French knot, many other novel types.

Send 15c in coins for your copy of "How To Make Your Own Rugs" to Home Service Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

The following booklets are also available at 15c each: 112—"How To Make Slip Covers" 127—"The New Way To a Youthful Figure"

155—"Glass Gardens and Novelty Indoor Gardens"

161—"New Ideas in Making Curtains and Draperies"

190—"Quick Course in Piano Playing"

BB—"Four Designs To Paint On Glass" (Second Series)

YES, ten to twelve servings of delicious ice cream and you make it yourself this easy, inexpensive way.

Get a package of Jell-O Ice Cream Powder, mix with a quart of half milk and half cream and put it outside on the window sill in freezing weather, stir two or three times when freezing and there you have it.

Your grocer has it in 5 delicious flavours—vanilla, strawberry, chocolate, maple and lemon. Try it this week.

SELECTED RECIPES

APPLE SAUCE CAKE

½ cup shortening
½ cup granulated sugar
1 cup Crown Brand Corn Syrup
2 egg yolks, unbeaten
2 cups pastry flour
1 teaspoon baking soda
1 teaspoon salt
1 teaspoon cinnamon
1½ teaspoon cloves
1½ teaspoon nutmeg
1 cup thick apple sauce (un-sweetened)

Temperature: 350 degrees F. Time: One hour.

Method: Cream shortening; add sugar and corn syrup. Add egg yolks, blend well. Sift together flour, soda, salt and spices. Add to creamed mixture alternately with apple sauce. Pour into pan 8" x 8" x 2" which has been lined with waxed paper and oiled with Mazola. Top with the following meringue:

Meringue

2 egg whites
¾ cup brown sugar
1½ cup Crown Brand Corn Syrup
½ cup chopped nuts.
Method: Beat the egg whites until stiff, gradually add sugar and corn syrup. Beat again until mixture peaks. Spread over raw batter; sprinkle with finely chopped nuts. Bake in moderate oven.

Note: If you prefer this cake iced with butter icing, use 1 whole egg in the recipe instead of 2 egg yolks, and omit the meringue.

MOLASSES OR NEW ENGLAND ALL-BRAN MUFFINS

2 cups Kellogg's All-Brn
½ cup molasses
1½ cups milk
1 egg
1 cup flour
1½ teaspoon salt
1 teaspoon soda

Add All-Brn to molasses and milk and allow to soak for 15 minutes. Beat egg and add to first mixture. Sift flour, salt and soda together and combine with all-brn mixture. Fill greased muffin pans two-thirds full and bake in moderate oven (400 degrees F.) about 20 minutes. Yield: One dozen (2½ inches in diameter).

Left Fortune For Poor

Lancashire Borough Asks Ontario Authorities To Release Money

Authorities of the borough of Colne in Lancashire, England, are asking the Ontario legislature to relax the terms of a will made by Peter Birtwhistle, who died in London, Ont., 13 years ago, so the money he left for the poor of his native village may be turned over immediately.

Under Birtwhistle's will, the original estate of \$600,000, now grown to \$700,000, would not be paid over until 1948. Colne authorities are asking for the money to aid villagers afflicted by the war. The will specified that the money was to be used by the borough for assisting the poor without limitation.

A Canadian hair dresser would use the aluminum in old permanent wave machines to construct aircraft and thus put a crimp in Hitler's hair.

Greek farmers can have their land plowed by the government at a fixed charge per acre.

Hydro In North

The First Hydro-Electric Power In The Northwest Territories

Hydro-electric power has been turned on at Yellowknife, reports the Department of Mines and Resources. The Con. News, and Rycon gold mines are receiving electrical energy from the first hydro-electric plant in the Northwest Territories, located at Prosperous Lake about 18 miles north of Yellowknife. Provision is also being made to supply the domestic requirements of the settlement. In addition Ptarmigan Mines Limited, Giant Yellowknife Gold Mines Limited and the Thompson-Lundmark Gold Mines Limited will be supplied with power in the near future.

Previously power for mining operations in this northern gold field was supplied by diesel units, the oil being shipped to Yellowknife from wells below Fort Norman, N.W.T. or from Alberta. The change to hydro will provide cheaper power, and thus enable the profitable working of lower-grade ore bodies.

Work on the project got under way in April, 1940, after one hundred tons of equipment and supplies had been shipped to Yellowknife by tractor over the Grinshaw-Great Slave Lake winter road and then by truck to the power site. The plant is estimated to have cost about \$600,000, and the work included the construction of a rock-filled timber dam 760 feet long and 16 feet high, a rock tunnel 800 feet long, a wooden penstock with a 90-foot surge tower, a frame powerhouse and substation, and a 33,000-volt steel tower transmission line for the delivery of the 1,200 horse-power of the initial development.

STYLE WITH STRIKING CONTRAST

By Anne Adams

Places to go? You'll have a "stand-out-from-the-crowd" air at gala occasions—in this bewitching new Anne Adams frock. Pattern 4681. Its simplicity spells good taste and distinction; its novelty details spell youth. Just see the unusually attractive lines of this frock! The bodice panels are very soft and gathered below the curved yokes; the high waist seam is gayly scalloped. The slim princess lines of the back are easy to stitch up. Let a belt buckle in back or tie in front, or have a sash of gay ribbon. Both short and tucked three-quarter sleeves are included in this graceful style. Aren't the panels attractive made in flowered print, with the rest of the frock in solid color?

Pattern 4681 is available in misses' and women's sizes 12, 14, 16, 18, 20, 30, 32, 34, 36, 38 and 40. Size 16 takes 3 yards 39 inch fabric and 1 yard contrast.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

Water that has boiled and cooled recently freezes faster than unboiled water—the reason: the boiled water requires time to reabsorb air.

Kelp, a kind of seaweed, is the longest weed known. It sometimes attains a length of 1,500 feet.

PATENTS

AN OFFER TO EVERY INVENTOR. List of inventions and full information sent free. THE RAMSAY COMPANY, Registered Patent Attorneys, 273 Bank Street, Ottawa, Canada.

HERE'S HOW TO CORRECT CONSTIPATION WITHOUT DOSING!

If you have suffered from constipation, you probably know from experience that harsh purgatives give, at best, only temporary relief. That's why doctors will tell you to get at the cause. If your constipation is the common type due to lack of the right kind of "bulk," try KELLOGG'S ALL-BRAN...

a truly delicious cereal that can help to keep you regular by supplying the "bulk" you need. Eat ALL-BRAN every morning... drink plenty of water... and see if you don't notice a big difference in the way you look and feel. Available at all grocers in two convenient sizes. Made by Kellogg's in London, Canada.

SUNDAY SCHOOL LESSON

FEBRUARY 16

JESUS TEACHES FORGIVENESS AND GRATITUDE

Golden text: Be ye kind one to another, tenderhearted, forgiving each other, even as God also in Christ forgave you. Ephesians 4:32. Lesson: Luke 17. Devotional reading: Psalm 100.

Explanations and Comments

The Sin of Cursing Others to Sin, Luke 17:1, 2. It is inevitable that hindrances should come (Moffatt's translation); but woe unto him through whom they come! The Greek word translated "occasions of stumbling," is the name of the upright stick in a trap on which the bait is fastened, which, when touched by an animal, causes the trap to close over it. Better were it that he should be put to death, than that he should cause one of these little ones to stumble. By "these little ones" Jesus refers affectionately to those disciples who were weak enough to be easily led astray.

The Duty of Forgiving Others Who Sin Against Us, Luke 17:3, 4. Take heed to yourselves: if thy brother sin, rebuke him; and if he repent, forgive him. We know from other teachings of Jesus that a free and full forgiveness for any wrong done to us is absolutely required of every follower of him. Any feeling of hatred or desire for vengeance should have no abiding place in a true Christian's heart, whether or not the offender is repentant.

A Lesson on Gratitude, Luke 17:11-18. As Jesus and his disciples were on their way to Jerusalem, traversing the borders of the two districts of Galilee and Samaria, they were met by ten lepers. The lepers stood afar off as was prescribed by law (Lev. 13:45, 46; Num. 12:2) to avoid infecting others with their loathsome disease, and cried loudly, "Jesus, Master, have mercy on us." Jesus bade them go and show themselves to the priests. If cured, they would have to do this in order to get their "bill of health," the priest's declaration that they were free from leprosy and might mingle with other people. Obedience to this command required great faith, yet all ten obeyed and on their way found their disease vanished. True it was for them that, as Dr. Jowett somewhere says, "faith begins as an experiment and ends as an experience."

French Indo-China

Japs Using The Siamese For Their Own Purpose

Some people have been confused by the fighting between Siamese and French, at the frontiers of Indo-China. In fact, it is merely a phase of the present world war.

The Siamese are allied with Japan. If the Japanese and the Siamese together could gain possession of French Indo-China, or of its strategic bases, roads and frontiers, a land attack upon the great British base at Singapore would become possible, along the Malay Peninsula. The Japanese, using the Siamese as a cat's-paw, are manoeuvring for position. They will not strike yet against Britain itself. They can bide their time—Chicago Daily News.

May Purchase Stratosliners

Britain Could Use Them For Pilots

Ferrying Officers From Canada. British officials are considering the purchase of five 33-passenger stratosliners from Transcontinental and Western Air, Inc., aviation circles said.

Such ships, these circles said, would be useful in ferrying back to this country pilots engaged in flying planes from Canada to Great Britain.

Donation From Pitcairn Island

The 200 people of lonely Pitcairn Island (where the mutineers of the Bounty took refuge) have made a gift of 244 walking sticks for maimed men. The sticks are beautifully made. To obtain some of the wood used, the islanders had to sail in their small boats 100 miles to another island.

England's Royal Mint reports that 500,000,000 pennies have disappeared in the last 80 years.

COLD ENDURANCE

The terms "warm blooded," and "cold blooded" are popular terms which do not mean what they say. Warm blooded animals are those whose body temperature is maintained at the same level regardless of outside temperatures. A better name for them would be "constant temperature animals."

"Cold blooded" animals are those whose temperatures vary with the environment. They are able to sustain life by adapting themselves to the low temperature through a variation of body temperature to correspond with the outside temperature. In cold weather they will be sluggish and in some cases appear to be dead.

Among human beings, differences in the ability to withstand the cold are determined partly by the amount of fat immediately under the skin. Because they are better equipped in this respect, women withstand cold better than men. In general, fat persons feel the cold less than lean persons. The rate of body chemistry, which is governed by the thyroid gland, is another factor in sensibility to cold. Persons with deficient or inadequate secretion from the thyroid, although they may be fat, are liable to feel the cold severely, while persons with over active thyroid may be thin, but not highly susceptible to cold.

One sometimes wonders why thinly clad women are able to stand cold so well. Use has something to do with this faculty. They are like Indians: "all face." The same circumstances appears in bare-legged children; they are used to the condition. But the condition may be carried too far. If chills result, the indication is to add to the clothing. Dampness of weather calls for more clothing. In damp weather the cold seems more penetrating, while frosty air is dry.

Laundress Of Ayrshire Married A Cousin Of The Queen

A 20-year-old laundress learned only after her wedding that she had married a cousin of the Queen.

The bride formerly was Jean Crawford of Largs, Ayrshire, and her husband Capt. Patrick Drummond Scott, 27, whose mother was the former Ernestine Bowes-Lyon. They met at a dance at Largs and were married two weeks later.

"I never realized that my husband was related to the Queen—and me a laundress—but it won't make any difference now, we are very happy," said Mrs. Scott when she learned of the relationship.

One must travel to the Tropic of Cancer, almost as far south as Cuba, to see the sun directly overhead. Even then, it is possible only in the month of June.

The chimney swift gets its name from its habit of nesting in chimneys.

When heated, the edible fruit of the akee tree of the tropics looks like a cooked egg.

Mayor Elton Gave

(Continued from Page 1)

that mass murderer Hitler. Coleman had a population of 4,000 people and an annual payroll of approximately \$1,200,000. He quoted from a budget plan issued by the federal government and stated that some of the workers here could make a monthly contribution of \$9 or \$10. Yorkton, Sask., a town of 4,000 which had been plagued by drought, had pledged itself to buying \$5,000 per month in certificates.

Mr. Morrison, secretary of District 18, U.M.W.A., stated that the citizens of Coleman could be depended upon to support their king and country. He heartily endorsed the meeting held to boost the war savings campaign and stated it was the least we can do to subscribe towards Canada's war effort to contribute to the best of our ability.

Mayor Elton opened his address with a few humorous remarks. He was in Toronto June 10, 1940, and attended the luncheon in the York hotel which the Hon. Norman Rogers was scheduled to address. It had been announced at the luncheon that due to fog Mr. Rogers would be unable to attend as his plane was unable to make Toronto. A transcript of Mr. Rogers' speech was given in which was the line quoted by Mr. Hansell, Mayor Elton also paid tribute to Mr. Rogers' greatness.

In the minister's desk at Ottawa following his death were found further notes which it is thought he had hoped to incorporate in his Toronto address had death not intervened. Mayor Elton spoke those words which the late minister had been prevented from doing. "In the faith we will fight, in the faith we will resist, in the faith we will fight on, and in the faith we will take the offensive and we will win."

The speaker took his listeners back to the 18th and 19th centuries

and quoted writings from the prophets of that time in relation to the events of today. He quoted extracts from Abe Lincoln's famous Gettysburg address.

He gave a vivid word picture of Hitler's juggernaut and Leopold's treachery crushing all in front of them—and then came Dunkirk. Beaten but unconquered, men died so that others could escape. It was not courage, discipline or planning . . . it was the common man applying all he had learned in life in aiding his comrades. It is something Hitler cannot conquer . . . it is the future . . . it is victory.

In remarking on the U.S.A., Mayor Elton stated it was the greatest friend and best neighbor a nation ever enjoyed.

The war today was between two forces. One was the law of the jungle, the other the law of neighborhood, love, friendship, fellowship and freedom. War was better than Hitler's juggernaut of hell. There was no question of the result; it was a question of "how long?"

War had its miracles. In the past eight months there had been a steady break-down of class caste in Britain. A better understanding prevailed among the peoples of the British Isles.

It was not necessary to tell the people of Coleman to buy war savings certificates, they knew what to do and what was expected of them. We cannot have luxury and freedom both in this day of sacrifice. As stated by Nelson "Every man must do his duty." Coleman would answer Britain's S.O.S. with C.O.C. . . . "Carry on Canada!"

Campaign Manager Fred Gerard told of the denominations in which certificates could be bought and the amount of interest derived at maturity. The local campaign was under the immediate supervision of Art Baalim of Lethbridge. He asked that volunteer canvassers leave their names so that they could be allotted a certain number of homes to solicit,

Over 200 wage earners had already been signed and more than 700 were yet to be approached. The meeting closed with the singing of "God Save the King."
